

Passion is powerful.

But without vision to focus it and mission to move it, passion becomes scattered energy.

FOCUSED IMPACT

$$\text{PASSION} + \text{VISION} \times \text{MISSION} = \text{FOCUSED IMPACT}$$

PASSION
energy we bring

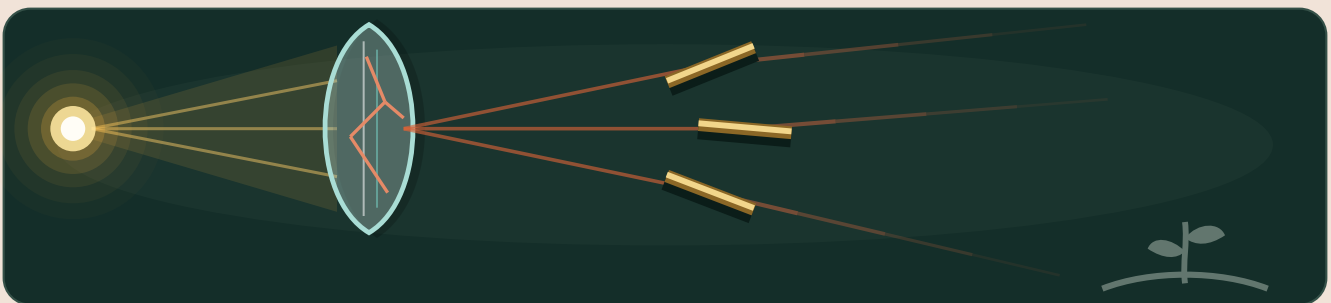

VISION
clarity that focuses

MISSION
direction we receive

IMPACT
faithful presence in a real place

SCATTERED ENERGY

$$\text{PASSION} - \text{VISION} / \text{MISSION} = \text{SCATTERED ENERGY}$$

PASSION
the energy is still there

DISTORTED VISION
sends it off course

COMPETING MISSIONS
divide the direction

SCATTERED ENERGY
loses strength before it lands

THE HEARTBEAT

Passion creates the energy. Vision brings it into focus.

Mission points it somewhere that matters. Impact happens where it lands.

Jesus knew why He came. He prayed, chose where to go next, and did not let the crowd choose His mission.
