

Bare is not the same as dead.

What looks dormant may still be deeply rooted in Christ.

Life does not begin when leaves appear. God was already sustaining it beneath the surface.

1

Rooted

The roots are holding more life than anyone can see.

2

Awakening

New life begins to break through.

3

Flourishing

Healthy systems make room for people to grow and breathe.

4

Fruitful

The community begins to experience the fruit.

5

Multiplying

Life takes root beyond the original tree.
